Center for International Intellectual Property Studies (CEIPI)

UNIVERSITY OF STRASBOURG

CEIPI offers several types of training courses, both leading and nonleading to a degree, in both initial and continuing education, in French and English.

Founded in 1963, the Centre for International Intellectual Property Studies (CEIPI), part of the University of Strasbourg, is one of the most renowned teaching and research centres in intellectual property (IP) at international level. Through its diverse and dynamic offering, it trains specialists in the various professions of IP, innovation and related disciplines.

Within this framework, CEIPI trains specialists in intellectual property law by organising several types of training. With over 60 years' experience, high-quality teaching tools and a teaching staff made up of specialist academics and recognised practitioners from all national, European and international backgrounds, CEIPI is now recognised in all specialised circles as one of Europe's leading university centres for teaching and research in intellectual property law.

Key figures

- 400 students every year
- In addition, more than 2,000 professionals prepare for the European Qualifying Examination (EQE) by taking part in CEIPI training courses throughout Europe.

47826

professionals attended training courses in European patent law and the European Qualifying Examination (EQE) since the Centre was founded

40 cities and **23** countries host CEIPI training courses

A research laboratory comprising **55** members, including **15** doctoral students in intellectual property law

400

international experts from 25 countries and 5 continents take part in CEIPI training courses every year

58361

specialists trained over 60 years

9217

graduates trained since 1963

CEIPI

950

officials from developing countries trained under the annual seminars organised by CEIPI, WIPO and INPI

Master

INTELLECTUAL PROPERTY LAW AND CULTURAL ACTIVITIES

PRESENTATION

This course offers both academic and practical training in intellectual property, covering the legal mechanisms for protecting, valorising and defending intellectual creations, in order to gain a thorough understanding of substantive IP law and its future developments.

The programme provides students with a thorough understanding of regulations in the field of intellectual property, emerging technologies, the Internet and the media.

PUBLIC

Admission to M1: Law degree with a good legal culture and a B2 level of English.

Admission to M2: M1 in private law, European law, international law, comparative law, business law, intellectual property or political science.

FEES

National fees are set by the relevant ministries. Students in initial training must pay the Student and Campus Life Contribution (CVEC). Details of tuition fees are available on the Université de Strasbourg website.

DATES

1-2 years.

The application campaign begins in the spring of each year.

INTELLECTUAL PROPERTY LAW AND MANAGEMENT **(MIPLM)**

PRESENTATION

This programme is offered as continuing education and is aimed at professionals who wish to diversify their main activity of acquiring titles (patents, trademarks, designs) and managing portfolios of intellectual property titles. It is also designed to provide company managers with skills in intellectual property management that their previous studies did not include.

PUBLIC

Professional representatives before the European Patent Office or before national offices, industry specialists, lawyers and intellectual property specialists, with at least three years' professional experience in the field of intellectual property.

FEES

Continuing training: €7,500 (including university fees).

Course eligible for CPF (Compte personnel de formation) funding.

Subject to validation of fees by university authorities.

DATES

6 months.

INDUSTRIAL PROPERTY

PRESENTATION

This programme is aimed at qualified engineers and scientists (professional representatives before the EPO or INPI, examiners), as well as examiners at these offices who wish to deepen their legal knowledge necessary for the evolution of their profession.

This programme trains specialists capable of mastering the complex legal issues of national, European and international law. The aim is to equip participants with the legal skills needed to protect and valorise inventions, trademarks and industrial designs, and to advise companies on defending their titles as well as handling patent litigation before the Unified Patent Court (UPC).

PUBLIC

Representatives or examiners before a national office or the European Patent Office with four years' professional experience in patent law.

FEES

Continuing training: €4,950 (including university fees).

Course eligible for CPF (French national training fund) funding.

Subject to validation of fees by university authorities.

Preferential rate for dual enrolment in the M2 Industrial Property + D.U. Patent Litigation in Europe: €7,030 (including university fees).

DATES

IP BUSINESS ADMINISTRATION (IPBA)

PRESENTATION

The objective of this distance learning diploma is to train both IP specialists and non-IP specialists, as well as anyone interested, in the role of intellectual property in business and its day-to-day management.

Aside from targeting non-specialists in the field, the particularity of this diploma is that it provides basic instruction in the management of intellectual property rights, potentially serving as a 'preparation' before enrolling in the Master 2 in Intellectual Property Law and Management (MIPLM).

PUBLIC

Intellectual property specialists: attorneys, lawyers, industrial property attorneys

FEES

Initial training: €3,200 (plus CVEC and national tuition fees).

Continuing training (including university fees): €6,900.

The course can also be taken in modules (without leading to a diploma):

Price per module: €900

Package modules 1 to 4: €3,250

Package modules 5 to 8: €3,250

Prices are subject to approval by the university authorities.

ARTIFICIAL INTELLIGENCE AND INTELLECTUAL PROPERTY (AIIP)

PRESENTATION

This course aims to fill the gap in legal expertise concerning the impact of artificial intelligence (AI) on intellectual property (IP). The course comprises five modules covering various ways of protecting AI and its products, as well as the rights associated with the data needed to train models. The course also includes a module on the societal challenges of AI and a presentation of the regulatory framework. In addition, one module is dedicated to a technical introduction to the components of an AI system, explaining how the algorithms work with practical examples. The course includes group work and the analysis of case studies throughout the year.

PUBLIC

Non-specialists in intellectual property: marketing professionals, project managers, company managers.

FEES

Initial training: €1,070 (plus CVEC and national tuition fees).

Continuing training: €5,000 (including university fees).

Subject to validation of fees by university authorities.

EPAC: TRAINING PREPARING FOR THE EUROPEAN PATENT ADMINISTRATION CERTIFICATION - IN ENGLISH, GERMAN AND FRENCH LANGUAGE

PRESENTATION

This course is designed for legal assistants, patent administrators and formalities officers with a view to obtaining the European Patent Administration Certificate (EPAC). Organised by the European Patent Office in October 2024, the examination tests candidates' knowledge of procedural aspects governed by the EPC, the PCT, the Paris Convention and national laws as well as other agreements applicable to European patents and patent applications, including the London Agreement. The EPAC enables candidates' professional skills to be officially validated. CEIPI offers specific preparatory training to help participants pass this exam.

ARTIFICIAL INTELLIGENCE & CONTRACTS - A HANDS-ON WORKSHOP

PRESENTATION

This workshop addresses the unique legal challenges associated with the development of artificial intelligence (AI) applications, particularly in relation to intellectual property and contracts. It aims to bridge the gap between theoretical knowledge and practical applications through a combination of teaching sessions and practical exercises. Participants will gain in-depth knowledge and practical skills to deal with AI contracts. The workshop follows the lifecycle of an AI project, covering critical stages such as data collection, model training, partnerships and deployment. It will conclude with a series of negotiation exercises. Each session includes presentations, contract drafting exercises and reviews with feedback from experienced professionals. By the end of the course, participants will be able to effectively manage the legal and contractual issues associated with the development and deployment of AI.

EXECUTIVE IP MANAGEMENT DAYS

PRESENTATION

This programme aims to train IP Management Executives in industry and government. The need for intellectual property (IP) management is growing and the standardisation of IP management practices in IP-oriented industries is increasing. The objective of this programme is to provide an overview of industry-specific IP strategies and their development, the systematisation of innovation practices and their development, the protection afforded by intellectual property rights from the point of view of their benefits as perceived by the end consumer, and the lasting changes this brings about in the organisation of innovative companies. The Executive IP Management Days are organised both as a presentation of the state of the art and as an exchange of experiences between participants from industry and private practice.

INTERNATIONAL ARBITRATION AND INTELLECTUAL PROPERTY DISPUTES

PRESENTATION

This seminar is intended to introduce professionals and students to the basic principles of international arbitration in the field of intellectual property disputes (arbitrability of IP disputes, autonomy of the arbitration clause, doctrine of Kompetenz-Kompetenz).

The seminar will present the pros and cons of arbitration and the advantages of institutional or ad hoc arbitration.

The course will also cover the various stages of arbitration proceedings, from the formation of the arbitration committee to the recognition and enforcement of the award.

PUBLIC

Professionals, lawyers, judges and students

REGULATORY AFFAIRS AND INTELLECTUAL PROPERTY PROTECTION IN THE PHARMACEUTICAL INDUSTRY

PRESENTATION

This seminar focuses on the interactions between patent law, supplementary protection certificates and the protection of data resulting from trials.

As far as pharmaceutical products are concerned, the branches of administrative law are linked to private law. There are numerous interactions between pharmaceutical law, intellectual property law, competition law and consumer law. Patents, supplementary protection certificates and regulatory exclusivities, including data protection, form a sophisticated legal framework of overlapping exclusivities that affect innovation and competition.

PUBLIC

Regulators, patent attorneys and in-house lawyers, as well as civil servants working for public health organisations, who have to navigate the many areas of law relevant to pharmaceutical research, development and innovation.

FEES

Professionals :

1,650 € (preferential rate) before 25 July 2024.

1,850 € (full rate) for all registrations after 25 July 2024.

Students :

515 € (Initial training)

Subject to validation of fees by university authorities.

DATES

3 days.

Dates in 2024 : 19, 20 et 21 September.

SUMMER SCHOOL « THE PATENT SYSTEM IN EUROPE »

PRESENTATION

The aim of this course is to provide an overview of the patent system within the legal framework of the European Union, as well as a practical approach to licensing agreements, litigation and the enforcement of patents in Europe. This course is aimed primarily at students and practitioners wishing to acquire the basics of European and international patent law.

Unique in Europe and in the world, this Summer School offers intensive theoretical and practical training for scientists and lawyers alike. Participants will also be able to put to good use the knowledge acquired during the various sessions at workshops.

PUBLIC

Students, intellectual property professionals, lawyers, researchers, European professionals not specialised in intellectual property and intellectual property experts from outside Europe.

FEES

Prices for 2024, for reference:

1 900 € (Full price)

1700 € (early bird)

Subject to validation of fees by university authorities.

DATES

9 days.

June-July 2025
