

Title:

CEIPI/WIPO/INPI Advanced Training Course on Intellectual Property, Technology Transfer and Licensing

Public:

The Advanced Training Course Intellectual Property, Technology Transfer and Licensing, jointly organised by the Centre for International Intellectual Property Studies (CEIPI) and the World Intellectual Property Organization (WIPO), with the assistance of the National Institute of Industrial Property (INPI) of France.

The technology transfer professionals to whom the training course is addressed are staff members of:

- specialised departments of research and development centres and university laboratories;
- public organisations of technology transfer;
- national intellectual property offices;
- private companies specialised in technology transfer;
- as well as independent technology transfer professionals.

Prerequisites:

Basic knowledge of intellectual property law and of technology transfer.

Entrance requirements

Participation of civil servants and staff members of certain public organisations shall be validated by WIPO Academy in the framework of its Professional Development Programme.

Learning objectives:

This training has as its objective deepening and update of knowledge on technology transfer.

Knowledge to be acquired:

At the end of the training course, the participants will have acquired new knowledge about:

- different mechanisms of technology transfer and intellectual property management;
- practices of organisation and negotiation of licences;
- particularities of technology transfer in the medical domain.

Content:

The content of the training course is determined by its learning objectives and knowledge to be acquired. The programme of every year is partially modified in order to take into account new practices and knowledge in technology transfer.

The classes notably cover:

- the role of intellectual property in technology transfer;
- management of intellectual property assets and licensing;
- public-private cooperation in technology transfer;
- particularities of technology transfer for public research centres, SMEs and large companies;
- particularities of technology transfer in the medical domain;
- international technology transfer, international intellectual property law and development;
- negotiation and drafting of technology transfer licences;
- open innovation and intellectual property;
- functioning of technology transfer offices;
- case studies and sharing of success stories.

Duration: 5 days (Saturday and Sunday are days off)

Hours (indicative): 10am-3.30pm

Language: English

Speakers:

The classes are given by experts and practitioners in technology transfer from different countries.

Technical and pedagogical frame
